SUMMARY

Front End Engineer with 3+ years of industry experience. Goal-oriented, results-driven with a strong commitment to detail-focused collaboration. Dedicated to building and optimizing user-focused websites. Committed to high standards of web design, user experience, and speed.

I believe my past experience in the banking industry as a personal banker will be helpful in designing and developing user-friendly and intuitive websites. I would love to be part of your team.

SKILLS

FRONTEND: React, Redux, JavaScript, ES6, HTML5, CSS3, SASS, Bootstrap
BACKEND: MongoDB, NodeJS, ExpressJS, RESTful APIs
OTHER: Git, NPM, GitHub, Jira, Jenkins, VSCode, Postman, Stripe, Heroku, Webpack.
